

Alliance of Molar Incisor Hypomineralization
Investigation and Treatment

AMIT Master Course on Early Childhood Caries Dubai, UAE | InterContinental Dubai Festival City

What are the focused topics?

- Prevention
- Behavioral Management
- Caries Management
- Pulp Treatment
- Restoration
- Crowns

What is the format?

- A quiz format will follow each plenary presentation
- We will have 3 breakout rooms discussing case studies
- Participants will be pre-grouped to enable networking with people from different countries
- An online examination will take place in the 3 breakout rooms during the last session

What are the learning objectives?

- You will receive updated guidelines in the treatment of ECC
- To enhance your knowledge in adequate caries treatment related to individual situations
- To obtain information about innovative procedures in pulp treatment in primary dentition
- To gain experience in different methods of behavioral management
- Participants will be able to differentiate when to use restorations and when to use crowns

What will you take home?

- A Master Course certificate
- A certificate if you have passed the examination
- Each participant will receive the PPT slides of the speakers after the Master Course

Important Information

Seats are limited for the Master Course and will be dealt with on a first come, first served basis. Register to avoid disappointment.
